

Supplementary Table: Focus Group Guide

Broad question	Follow-up prompts for Providers	Follow-up prompts for Community Health Workers
<p>First, we would like to get started with you telling us about the nature of your current job.</p>	<ol style="list-style-type: none"> 1. What is your primary role? 2. Which services do you provide? How do you spend most of your time? 3. What is your patient population like? a. How many are breast cancer patients? How many are Black? 	<ol style="list-style-type: none"> 1. What is your patient population like? <ol style="list-style-type: none"> a. Do you work with breast cancer patients? How many are Black?
<p>Next, could you tell us about your past trainings and current practices in advance care planning with your patients. We know [Advance care planning] ACP can be defined in many ways, and here we are thinking about documenting advanced directives, specifically. But we are interested in hearing your thoughts about ACP generally, as well.</p>	<ol style="list-style-type: none"> 1. Have you ever received training in advance care planning (when/where)? Tell us about it. 2. What does ACP look like now currently for your patients? <ol style="list-style-type: none"> a. What goes well when you try to have these conversations with patients? b. What are the challenges? 3. What challenges come up when working with racial/ethnic minority patients, particularly black women, and having ACP conversations? What goes well? 4. What is your decision process involving other team members to have ACP conversations? 5. What is the workflow like? When do you pull people in? 	<ol style="list-style-type: none"> 1. Have you ever received training in advance care planning (when/where)? Tell us about it. 2. Are you involved in ACP now with your patients? How have you been involved in ACP with a care team at UChicago? <ol style="list-style-type: none"> a. If so, what goes well when you try to have these conversations with patients? b. What are the challenges? 3. What challenges come up when working with racial/ethnic minority patients, particularly black women, and having ACP conversations? What goes well?
<p>Finally, we would like to hear your thoughts about integrating community health workers into advance care</p>	<ol style="list-style-type: none"> 1. Do you interface with CHWs? 2. What do you think 	<ol style="list-style-type: none"> 1. How do you see your role in increasing these discussions?

<p>planning discussions with cancer patients.</p>	<p>about CHWs having a supportive role? 3. Example: Would you want a CHW to take on introduction to ACP role to prepare patients to have a more productive conversation with you?</p>	<p>2. Example: Would you want to take on an introduction to ACP education role to prepare patients to have a more productive conversation with their provider? 3. What should this look like? When/where/how do you imagine this education would occur? 4. How can we make this intervention culturally appropriate for black women? 5. How would we need to design a training that is appropriate for your model of care?</p>
