

S7 Fig. LTBP4 binding of GDF11.

Constructs used

Full length (FL), N-terminal (N), or C-terminal (C) LTBP4 constructs were expressed in HEK293T cells with GDF11. FL-LTBP4 associates with GDF11 by IP (top gel panel). Both the N- and C-terminal fragments of LTBP4 associated with GDF11. The lower two panels verify that GDF11 LTBP4 were expressed as expected.
