Loading and Preparing IGO Data

IGO Data Integration for International Status Analysis

Status Researcher
2025-04-10

Introduction

This document demonstrates how international Governmental Organization (IGO) membership data with our existing dataset on state recognition, material capabilities, and regime characteristics. IGO membership represent an important dimension of international status, as membership can signal status or be "status-through-negation" (Schroeder), and can help measure institutional integration in the international community.

Loading and Preparing IGO Data

```
# Load the IGO membership data
igo_data <- read.csv("/Users/privatepc/Desktop/MA Thesis Data Version/IGO/IGO-2014.csv")

# Examine data dimensions
cat("IGO membership data dimensions:", dim(igo_data)[1], "rows,", dim(igo_data)[2], "columns\n")

## IGO dataset dimensions: 27377 rows, 117 columns

```

```
summ("mean (range)", mean(igo_data$years), "\n", max(igo_data$years), "\n")

## Mean (range): 1916 to 2014

```

```
summ("Number of countries", length(unique(igo_data$ccode)), "\n")

## Number of countries: 227

```

```
# Examine some sample data
head(igo_data, 5:20)
